REGISTRATION PROCEDURE

1. Accommodation

All teams will need to settle their accommodation in order to proceed to the next steps.

1. **Registration**

To avoid long queues it is wise to pre-register on line. You will find the registration form on the web site or you can request to send you one via email. This will enable you to finish faster with Doctor and Weight in as priority will be given to you. All athletes will need to fill in one participation form per style.

1. **Athlete Passports**

All athletes will need to have the athlete passport in order to be able to participate and pass medical control.

1. **Medical Examination**

All athletes will pass the medical control as it states in the invitation program. Those who will

not be on time and skip the medical examination will not be able to participate. No exceptions can be made for any team. The Medical examination cost will be covered by the Promoter.

1. **Weight In**

Please make sure that you are the same weight as originally confirmed in your participation form. If you lost or gained weight then you will be moved to another division. **The weight in will close at 22.00 o' clock on the 6**

th

of May

. Make sure your team will be at least two hours earlier to finish on time. The athlete is allowed to officially weight in only once.

ABOUT SANTORINI

Santorini Greece is one of the most popular destinations of Greece and is known as the **home of one of the most spectacular landscapes in the world.**

Every year, thousands of tourists visit Santorini to discover the famous submerged caldera, the volcano's crater, which is situated today in the middle of a 32 square miles basin of water. Around the basin, hanging on cliffs of 150m to 300m height, one can admire some of the most

beautiful traditional villages of the Cyclades. The lively colours of the white Cycladic houses and blue painted windows contrast stunningly against the black volcanic rocks rising from sea. This scenery keeps inspiring artists and visitors... These villages are named Fira, Firostefani, Immerovigli and Oia.

The island name comes from 'Santa Irini' and it is officially called Thera.

Santorini is a volcanic island made of black stone and therefore offers a spectacular landscape and a unique atmosphere. It's traditionally shaped villages lie on top of impressive cliffs 300 meters high and offer a panoramic view of the submerged volcano.

But Santorini has much more to offer to the visitor: endless and unique black sandy beaches, archaeological sites, museums, incredible local products, great food, and much more

During the ancient times, the shape of Santorini was circular and that was the reason it was also called Strongili, which means circular in Greek. The volcano's eruption destroyed the centre of the island, causing it to sink and to create today's caldera.

The first eruption of the Volcano took place around 1500 BC, and is said to be responsible for the destruction of the great Minoan civilisation of Crete. The last eruption took place in 1956 but the volcano remains active until today. Some believe that the destruction of Santorini could be related to that of the mythical Atlantis.

Santorini is one of the most popular destinations in Greece and attracts thousands of visitors each year.

You can reach Santorini by airplane from your country either by direct flight or via Athens and by ship from Piraeus port
